**EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

1. This Office Action is responsive to Applicant's Amendment filed on 7/27/04. Claims 5-7 have been amended, and new claim 8 has been added accordingly.
2. Claims 5-8 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Claim 5 has been amended to overcome the prior art. Examiner agrees with Applicant's arguments regarding claim 5. New claim 8 has been added which includes the allowable subject matter.

The prior art of record does not disclose or render obvious a motivation to provide for a clutch changeover method in a change-speed apparatus including two clutches disposed on a movable element which is meshed with a carrier of a composite planetary gear device such that the movable element does not rotate relative to the carrier but movable along the axial direction, an elastic body and an actuator both for engaging and disengaging the two clutches such that the operating directions of the elastic body and the actuator are opposed to each other in the axial direction, wherein the engagement of one clutch is changed over to the engagement of the other clutch by moving the movable element against the biasing force of the elastic body by activating the actuator as defined by the limitations of claims 5 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
